CANOLBARTH MÔN AND LLIFON AREA

WELL-BEING ASSESSMENT GWYNEDD AND MÔN

WANT
TO HAVE
YOUR
SAY?

The new act has established Public Services Boards for each local authority area to make sure that public bodies work together to create a better future for the people of Wales.

For Gwynedd and Anglesey, both Boards have decided to work together, and it's a partnership which includes the local authorities, the fire and rescue service, the health service and Natural Resources Wales.

The Gwynedd and Môn Public Services Board has divided the whole area into 14 smaller areas. Research has been carried out on behalf of the Board on each of the 14 areas to learn and understand more about the well-being of those areas. As well as the data available, we also want to know what you think about your area and community – what's important to you, what's good and what needs improving. **You will have an opportunity to have your say by attending one of the local drop-in sessions or in an online questionnaire. More information and the dates of all local sessions are on www.GwyneddandMonWell-being.org.**

This consultation period ends on December 31st 2016. The hope is that the Board will then have a clearer picture of our communities, what's important to the people in this part of Wales, and how partners can work together to plan services for the future.

THE WELL-BEING OF
FUTURE GENERATIONS
[WALES] ACT CAME INTO
FORCE ON 1ST APRIL
2016. THE PURPOSE OF
THE ACT IS TO IMPROVE
THE **SOCIAL,
ECONOMIC,
ENVIRONMENTAL
AND CULTURAL**
WELL-BEING OF WALES.

THIS IS THE
INFORMATION WE HAVE
COLLECTED ON THE
CANOLBARTH MÔN AND
LLIFON AREA SO FAR.

AREA?

WHO ARE THE PEOPLE OF CANOLBARTH MÔN AND LLIFON?

80% INCREASE AGE 80+

14,999 people live in the Canolbarth Môn and Llifon area. This is around 21% of Anglesey's population.

Compared to the rest of Anglesey there are more children in this area, and more 25-44 year olds. There are fewer in the older age groups, especially between 55 and 74 years old – which is different to the trend across the rest of the county.

The number of people living in the Canolbarth Môn and Llifon area has increased by 8% between 1981 and 2011 – this is relatively similar to the growth in Anglesey and the whole of Wales over the same period (5% in Anglesey and 11% through Wales).

This growth has not been the same in every age group. The number of people over 80 years old in Canolbarth Môn and Llifon has increased by 160% in 30 years. During the same period, there has been a 20% decline in the number of children under 15 years old, and in the number of people between 16 and 39 years old.

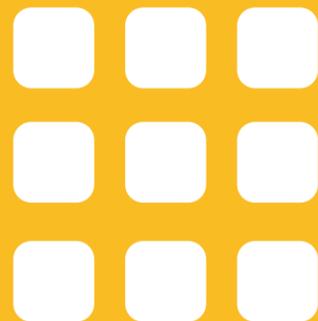

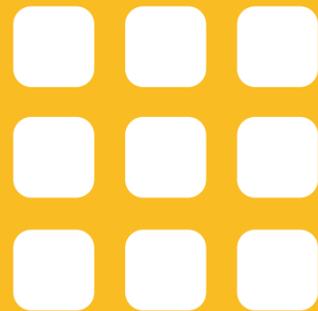

This pattern is expected to continue over the next 20 years with an **increase of 80%** in the number of people over 80 years old across Anglesey – but it's likely we'll see a decrease of 12% in the population under 16 years old.

LANGUAGE

According to the 2011 Census, **65%** of people in Canolbarth Môn and Llifon speak Welsh. There has been a 2% fall since the 1981 Census. This decline in the area is lower than that across Anglesey, where there has been a drop of 5% (62% to 57%) over the same period.

Recent figures show that 46% of Anglesey's people speak Welsh daily, compared to 11% across Wales.

ENVIRONMENTAL

HOW GREEN IS THE AREA?

Recycling rates have risen in Anglesey over the last 4 years. By now **59.5%** of waste collected from houses, business and recycling centres in Anglesey is re-used or recycled. This includes bio waste materials which are composted.

The fly tipping rate is higher on Anglesey than the rest of Wales – with 25.3 cases per 1000 head of population reported, compared to 10.2.

Carbon footprint – data shows **84%** of homes in Canolbarth Môn and Llifon own at least one car, compared to 82% across Anglesey and **77%** for the whole of Wales. Carbon emissions per head of the population for Anglesey is at **6.7kt CO₂** which is slightly higher than the level for Wales of **6.6kt CO₂**.

Climate change causes the sea level to rise which contributes to the risk of floods in the area. In Anglesey, around **970** properties are at risk of flooding in 4 areas which have been identified as being at risk from severe floods.

In Canolbarth Môn and Llifon around **200** homes are under threat of inland flooding by rivers in the area.

CLEAN STREETS?

The cleanliness of our streets is inspected annually by Keep Wales Tidy. Of the streets inspected in the area **8%** had no waste at all (Grade A), **17%** had no more than three small items of rubbish (Grade B+) and **75%** generally had no rubbish or waste, apart from some small items (Grade B). On the whole streets in Anglesey tend to be Grade B or B+.

THE NATURAL ENVIRONMENT

There are many important habitats on Anglesey which include low and coastal heathland, marshes, woodlands, and ancient hedgerows, as well as some of the largest sand dunes in Wales. This is one of the strongholds for some rare species, such as the Great Crested Newt, the Red Squirrel, Otter, Water Vole and Chough. Protection plans are in place for each one.

One of Anglesey's local nature reserves is located in this area – The Dingle or **Nant y Pandy** in, Llangefni. **Gors Erddreiniog** and **Cors Bodeilio** National Nature Reserves are also in the area and are part of Anglesey's wetlands. They are calcareous (lime) fenland which are rare in the UK and a number of the species living here have adapted specifically for habitat such as this.

The first mink was caught on Anglesey in 2005, several have been caught near the Cefni reservoir since then. There are efforts to ensure it doesn't become established on the island as it hunts fish, invertebrates, amphibians, birds and small mammals, which make it a threat to wildlife in the area.

SOCIAL

GOOD HEALTH?

In the Canolbarth Môn and Llifon area around **1,300** people are registered per GP. This is a little lower than the level for Anglesey of **1,400** and significantly lower than Wales' figure of **1,600**.

If you live in this area then it's likely you will have to wait between **3:16** and **5:33 minutes** on average for an ambulance to respond to a call where there is threat to life.

There is no specific information available on the health of the population in Canolbarth Môn and Llifon. The statistics included in the booklet are for the whole of Anglesey – but give an idea of the general health conditions and patterns across the county.

Men's life expectancy at birth on Anglesey is **78.7** years old, whilst a woman can expect to live until she is **83** years old.

The gap between male and female life expectancy at birth, between those who are most and least privileged in our communities, is substantially less in Anglesey than for Wales as a whole. The gap is as much as 75% less for women and 30% for men.

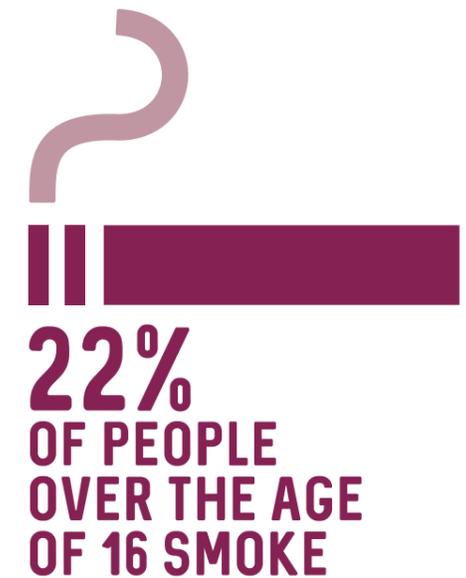

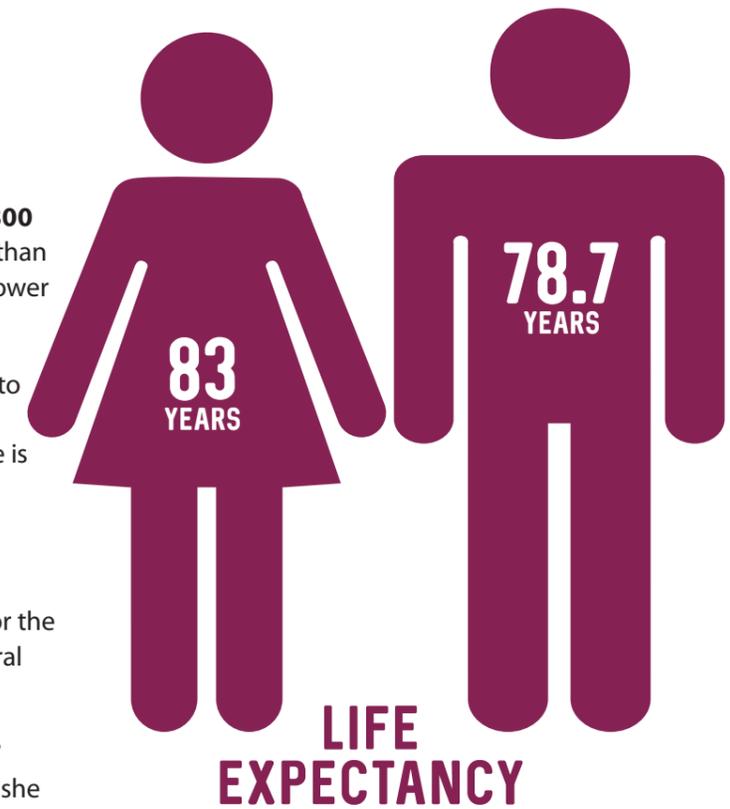

58% of adults on Anglesey are overweight or obese – this is the same percentage as the population of the whole of Wales. The percentage on the island has increased by 3% since 2011, whilst Wales' figure has stayed the same.

On Anglesey, 32% of children aged 4-5 years are overweight or obese - this is higher than the Wales figure of 26%.

Other factors that affect our health are smoking and drinking alcohol. **22%** of people who are 16 or older on Anglesey say they smoke and 38% of people drink more than **5** small glasses of wine, or around 3 pints of beer, on the heaviest drinking day of the week. This is similar to the rest of Wales and has been consistent over recent years.

The suicide rate on Anglesey of 10.4 for every 100,000 of the population, is lower than the Wales suicide rate which is 12.2 a year.

On Anglesey the teenage pregnancy rate for under 18s is 23.6 per 1000 females aged 15-17. This is similar to the Wales figure.

STAYING SAFE

The crime rate for Canolbarth Môn and Llifon per 1,000 head of the population has fallen from **123.4** to **94.1** between 2011 and 2015. The number of crimes in Anglesey has also dropped during the same period from **109.2** to **83.4**.

Anti-social behaviour is down but still counts for **35%** of all crime in the Canolbarth Môn and Llifon area.

81% of people believe it is safe for children to play outside in Anglesey and Gwynedd. The corresponding figure for Wales is 64%.

In the Canolbarth Môn and Llifon area there are **46** instances of fire every year on average. Around **20%** of these cases are started deliberately.

KEEPING IN TOUCH

The percentage with access to broadband is increasing annually – now, only **2%** of properties on Anglesey have no access at all.

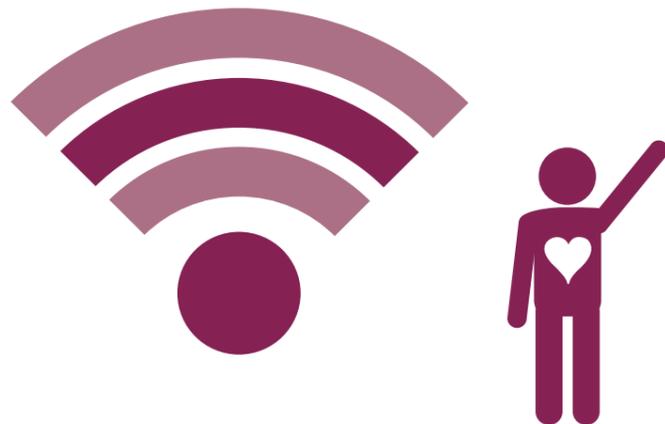

16% of homes in Canolbarth Môn and Llifon are without a car or van, which is lower than the figure for the whole of Wales which is 22%.

According to national data, Llanddyfnan, Llanfair-yn-Neubwll a Bodffordd are amongst the 10% of areas in Wales where it takes the most time to travel to basic services such as a pharmacist, grocery shop and doctor's surgery.

Loneliness is a condition that affects all ages, but older people are more vulnerable. In Canolbarth Môn and Llifon, considering the different factors that contribute to loneliness, there is a higher risk for people over 65 years old in the Tudur area in Llangejni. There is a lower risk of loneliness in the Valley area.

HELPING EACH OTHER

11% of the population in Canolbarth Môn and Llifon provide at least one hour a week of unpaid care. This figure is similar to other areas in Anglesey and the rest of Wales.

JOBS AND THE ECONOMY

Using the measure of how strong and productive the economy is (Gross Value Added) Anglesey's economy is generally weaker than Wales' economy. But, the economy of the whole of Wales is weak compared to the United Kingdom.

27% of people in work, but with no qualifications, work in elementary occupations in Canolbarth Môn and Llifon e.g. cleaning, waste collection, farm or factory work. This is very similar to the pattern across the island.

Of Canolbarth Môn and Llifon's population without any qualifications, **45%** are economically inactive – this means not working or looking for work for various reasons. This is the second lowest figure of all areas on Anglesey.

Skilled crafts employ most workers in this area – at **17%**. Around **37%** of people with a degree or equivalent work in a professional field, this pattern is similar to the rest of Anglesey and Gwynedd.

The percentage of 16-64 year olds claiming Jobseeker's Allowance in Canolbarth Môn and Llifon is amongst the highest in Anglesey. Last year at its height **3.14%** of working age people were claiming the allowance. The Anglesey figure does not drop below **2.96%**, and is generally high compared to Gwynedd and the rest of Wales. At least **2.15%** of those aged 16-64 in Wales as a whole claim Jobseekers Allowance at any one time.

The rate of new business start-ups in Anglesey is higher than Gwynedd and very similar to the level in Wales. **65%** of companies on the island stay in business for at least three years. This is higher than levels for Wales which has **60%**. The rate of business failing is also higher for Anglesey (8%) than Gwynedd (7%), and slightly lower than Wales (9%).

Agriculture is the largest sector in Canolbarth Môn and Llifon – it accounts for **19% of all employers**. The next is construction at 10%.

12% of the population at 16 years old and over work from home, which is a little less than the figure for Anglesey. **42%** of those living in Canolbarth Môn and Llifon travel over six miles to work.

The median weekly wage in Anglesey is around **£422 per week**, which is **8%** higher than the median across Wales (£386 per week). Women's pay is **27% lower** than men's pay on the island, but this gap is lower than that for Wales which is 33%.
